Tracking clips: lay out on the LEFT half (coding space)

Cards in each line touch end to end. Lines one card-height (30 mm) apart. Only the three lines inside `[repeat]` are indented, by 1U (30 mm); `[define]` doesn't indent, and `[dedent]` sits in `[repeat]`'s column. Grey numbers are the marker IDs printed on the cards.

```
[define setup]1000
[createCanvas]1001 [num 500]1002 [num 500]1003
[background]1004 [mediumblue]1005
[noStroke]1006
[fill]1007 [gold]1008
[repeat]1009 [num 30]1010
    [set x to]1011 [random]1012 [num 500]1013
    [set y to]1014 [random]1015 [num 500]1016
    [rect]1017 [get x]1018 [get y]1019 [num 10]1020 [num 16]1021
[dedent]1022

(one empty line)

[circle  3D card]0 [num 250]1024 [num 250]1025 [num 100]1026
```

Off the table, within reach:

- the paper `[circle]` 1023
- the blank cards `[num …]` 1027, 1028 and `[str …]` 1029
- a pen for the whiteboards

Exact spacing doesn't matter for this test. Hands off the table when done.
